Comments Report

7.3) Please comment on what you feel are the positive and negative aspects of your instructor and his/her teaching outlook:

The test were much harder than what was taught in class. Some of them were any way.

Practice Exams would help.

Realy knows and understands the matirial

- can come across as a little harsh

He is a great teacher, tells students up front that it will be very hard The amount of homework given is daunting, and intimidated my self.

You missed a couple of classes and then you tested on them very hard.

He knows the material very well and can break it down very easily for students to learn it.

7.4) Comment on what you feel are the positive and negative aspects of this course:

The T.A. was useless

good course, more emphasis an proof is needed

Maple is pointless useless and unnecessary. Our T.A. was Autistic and I feel cheated by the math dept. Get better T.A's and maybe more than 30% of people will pass.

The maple lab was somewhat a waste of time. The lab did not enhance my ability to understand the material.
